

SET-ENGINE 5 SEATS

MULTIPLAYER MACHINES

5 seats

SET-Engine is a line of multi-player electro-mechanical Roulettes equipped with automatic Roulette wheel and 5 or 8 seats (19 touch-screens).

For our multiplayer electronic Roulettes we use only high quality wheels with absolute randomness – same ones used for live tables. The power of ball blowing and rotor speed are permanently and randomly varied to provide unpredictable winning number. The perfect precision, outstanding quality and extended reliability guarantee 24/7 wheel spinning of our electromechanical roulettes. Beside the automatic wheel SET-Engine can be connected to 3 additional automatic or live wheels.
