

SMART MEDIA SIGNAGE

TABLE SYSTEM FOR CARD GAMES

The Smart Media Signage (SMS) is not just table limits display but also a server based media system providing all live tables with on-line media feeding (images & video) and game information.

Every display in this system can be configured remotely to fit game type, bet limits and other information in live tables. In addition the SMS allows sending short messages and instructions to the dealers from Pit-Boss or Shift manager PC.

10"
